(D-Day / N-Night / U-Unknown)

## March 2008

Hello Block Watch Members!

There were 26 residential burglaries during the month of March, with **1** occurring in an **active** Block Watch residence.

Reports of forced residential burglaries, occurring in the evening, by forcing or breaking a window in the back of a residence, are on the increase. The following are some helpful tips on how you can assist in deterring this type of crime:

1. Place a padlock on your fence gate to deter easy access into the back of your home.
2. Make sure all sliding windows and sliding glass doors are secured and a dowel placed flush into the track before you leave your home or before you go to bed.
3. Alarm systems have the option of installing “window bugs” that will sound an alarm if the window is broken or tampered with.
4. Install motion sensors along the sides and back of your home. Lighting is the #1 deterrent to crime!
5. If you see suspicious subjects near your home or your neighbor’s home, call 9-1-1 immediately! Do not wait for a “defined crime” before calling the police. Suspicious activity will almost always come before an actual crime. Listen to your gift of intuition!
6. If you come home and notice things are in disarray, do not touch anything, leave the house, and call 9-1-1. If there are fingerprints or items of evidentiary value inside, you may jeopardize the investigation if you enter.
7. If you are inside your home and you think you hear glass breaking or unexpected movement in another part of your home, get safe, and call 9-1-1 immediately.
